Pre-school can help close this gap. So in a speech last month, Mr. Obama called for a partnership between the federal government and the states to expand it to every American child. It later became known that “every” meant those who come from families with incomes of up to 200% above the poverty line—equal to an income of \$47,000 for a family of four.

Some critics (评论家) say that sending children to school at the age of four does not work. The evidence suggests otherwise. For example, on March 20th new results were announced from a study of 9 to 11 year olds in New Jersey. This report found that disadvantaged children who had attended pre-school had better literacy (读写能力), language, math and science skills. And two years of pre-kindergarten were better than one.

Some studies also follow the effects of early learning over lifetimes, such as its effect on crime rates and other factors that may eventually burden society. Critics have *singled out* a government scheme called Head Start, created in 1965, which provides poor households with a range of services including school-based early education.

21. The kindergarten in other rich countries usually begins \_\_\_\_\_ than in America.

- A. earlier
- B. later
- C. slower

22. Which is TRUE about the vocabulary size of the two groups of kids?

- A. Poor pre-school kids have a larger vocabulary than rich ones.
- B. Rich pre-school kids have a larger vocabulary than poor ones.
- C. There is no obvious difference between the two groups of kids.

23. Which of the following about the New Jersey study is TRUE?

- A. There is no evidence to support the New Jersey study.
- B. Two years of pre-kindergarten were better than one.
- C. Sending children to school at the age of four is not going to help.

24. The phrase “single out” in the last paragraph means \_\_\_\_\_.

- A. count
- B. think about
- C. choose

25. Which of the following is an appropriate title for this passage?

- A. Secondary Education
- B. Pre-school Education
- C. Poor Kids' Education

26—30 题: 阅读短文, 判断句子正误, 正确写“T”, 错误写“F”。

A cover letter is a letter of introduction sent along with a résumé or curriculum vitae (CV). How do you write a successful cover letter? Bear these points in mind, and you'll always make a great impression.

Keep your cover letter brief and to the point. Writing more than one page is usually unnecessary. If it is sent in an email, writing three short paragraphs is quite sufficient.

Explain why you are sending a résumé. Don't make the reader guess what you are asking for.

Tell specifically how you learned about the position or the organization—a flyer posted in your department, a web site, a family friend who works at the organization, etc.

Convince the reader to look at your résumé. The cover letter will be seen first. Therefore, it must be very well written and targeted to that employer.

Call attention to your background—education, leadership, experience—that is relevant to the position you are seeking.

Provide any information specifically requested in the job advertisement that might not be covered in your résumé, such as availability date, or references.

26. A cover letter is a letter of introduction sent along with a résumé.

27. The cover letter is usually more than one page.

28. There is no need to explain why you are sending a résumé.

29. The cover letter must be very well written.
